

JITESH VISHNOI

+91 7339791163 | jiteshvishnoi0@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: Python , SQL , C , Java, HTML5 , CSS3 , JavaScript (ES6+)

Databases & Cloud: MYSQL , Vercel

Embedded: ESP32, Arduino, MPU6050, MAX30102, I2C, PID Control , Blynk.cloud

PROJECTS

Interactive 3D Portfolio | React, Three.js, GSAP, Supabase. [[Live](#)]

- Developed a scroll-driven 3D portfolio with interactive animations.
- Integrated contact form with Supabase and LocalStorage fallback.
- Optimized rendering for smooth 60 FPS performance.

House Price Prediction Web App | Python, Scikit-learn, Pandas, Streamlit. [[Live](#)]

- Developed a machine learning web application that predicts house prices based on user-input property features.
- Built and trained a regression model using data preprocessing, feature engineering, and model evaluation techniques.
- Deployed an interactive interface for real-time predictions, enabling users to estimate property prices instantly.

IoT Health Monitoring System | ESP32, MAX30102, Blynk.

- Measured heart rate and SpO₂ in real time and streamed data to Blynk Dashboard.
- Used I2C communication and processed sensor data for accurate readings.
- Displayed live metrics on an OLED display.

EXPERIENCE

Developer & Project Lead | Academic & Personal Projects | 2024 – Present

- Built embedded systems, robotics projects, and modern web applications.
- Designed responsive React interfaces and deployed applications on Vercel/Netlify.
- Managed Git-based workflows and project documentation.

EDUCATION

- B.Tech in CSE :- AI & ML | JIET Jodhpur] | 2025 – present
- B.Sc. in AI & Data Science | IIT Jodhpur | 2025–present
